The best jobs should be open to everyone

Back in 2019, Oyster began with a question: How can we make global employment easier for companies and talented workers?

Building an all-star team shouldn't be limited by borders. We're on a mission to make it easier than ever for growing companies to hire, pay, and take care of brilliant employees—wherever they are in the world.

Today, our fully-distributed team is based in 60+ countries and this number is expanding every week. We embrace the benefits and opportunities that come with global employment—and we're working together to provide them to you too.
